## NEWSLETTER AUGUST 2019

### PRODUCT & SERVICE CHANGES

- ❖ Due to an increase in grooming appointments, we have adjusted the schedule to include limited drop off times at 10:00 am, Monday- Thursday. We will no longer be offering grooming on Fridays, only baths.

### LET'S TALK... FLEA, TICK & HEARTWORM PREVENTION →

Warmer weather is here and with that comes bugs! Fleas transmit tapeworms to your pets as well as humans. Ticks are known to transmit diseases including Lyme Disease. For these reasons, we offer a 12 week prevention called Bravecto. This can be given orally in treat form or applied topically. Heartworm disease is transmitted by mosquitoes and can be fatal in your pets. Tri-Heart Plus, a monthly chew, is most effective for prevention of this disease. We recommend using both products year round.

### FEATURED PET → MEW STEVENS OWNED BY BETHANY STEVENS & TIM WUNDER

Mew came in recently looking thin and not wanting to eat. We quickly found out that Mew was a chewer and explorer! She had in fact consumed not one, but TWO pennies! Pennies can be very dangerous, especially those minted after 1982 due to the level of zinc used to make them. With all of the love and care she received at home after her surgery to remove them, she recovered perfectly!

## WELCOME

Welcome to PetMed Animal Health Center's first monthly newsletter! Our goal is to keep our clients informed and updated on changes in services, promotions and specials, as well as extend our product knowledge to better serve you!

### ← MEET TAYLOR

... Or should we say, welcome back Taylor! Taylor returns to the PetMed family as our Client Services Manager. She is here to serve YOU by helping clients better understand the full potential of our products and services as well as instituting open and effective communication between clients and staff. Taylor is also our social media coordinator!
